I don't think we or EAID needs a separate paper for Dimock, since its not our lead, and we really can only speak about the data generation.

Not sure why you weren't cc'd. Interesting that one is being done on Dimock and we're not reviewing....

And turn around needs one less "a"

Thanks!

I can go ahead and make Cindy Metzger's edits on the first version. My only additional change would be to spell out Wyoming in the 3rd bullet.

Thanks

Here is a draft. I did not know what to put for next steps. This is mainly an awareness issue about various projects impacting limited resources.

Would Pavillion and ORD HF be added to this and capture the method development project? I'm not sure if anything more needs to be said about Dimock unless Shawn wants an update from EAID perspective??

10.26.11 --

Please email your briefing papers to Amy Caprio and Mike D'Andrea no later than the Monday BEFORE your  
schedule Hot Issues Briefing.

Hot Issue Briefings are each division's/office's opportunity to brief the RA and DRA on important and emerging issues  
within their program. Please prepare a briefing paper for each issue you plan to present using the attached briefing  
format as well as an agenda.

We are attempting to make these briefings as green as possible so there is no need to bring hard copy documents to  
the briefing. The RA and DRA highly encourage the use of the audio visual equipment in the RA's Conference Room  
(this does not mean that you are required to create a Power Point presentation). **Directors should invite all staff  
necessary to the briefing and should coordinate with other divisions as needed.**
